## Overview

The Community Sport Hub (CSH) programme is **sportscotland**'s contribution to the legacy of the 2014 Commonwealth Games. CSHs make a significant contribution to our aspiration of building a world class sporting system for everyone in Scotland. They focus on supporting and developing local clubs and sport organisations in the Clubs and Communities environment. The CSH project has an annual budget of up to £1.5 million. CSHs are based in local facilities such as sport centres, community centres, club pavilions, the natural environment and/or schools. They bring together local people and provide a home for clubs and sport organisations in their local communities. Our aim is to set up 200 CSHs by 2020, with 50% to be based in schools.

All hubs work to the following five principles:

- Growth in participation
- Engage the local community
- Promote community leadership
- Offer a range of sporting opportunities
- Bring appropriate (key) partners/groups/people together

These headline figures outline the overall results for the sports clubs that are part of a CSH. The figures used are the total playing membership and active coaches of the entire club, not just those participating at one particular hub. This is important to note as some clubs are part of a number of CSHs.

We collect our data through My Sport, our online system, which gathers data across all club programmes, including CSHs, Direct Club Investment and SGB Regional Development staff, allowing for us all to work from the same reference point. While our reporting now focuses on club membership, we will continue to collect and report hub membership as a consistent measure to report on the 2014 Commonwealth Games legacy. This data is shown in Appendix 1 of this report.

We also collect data from all other organisations that are part of hubs, these include organisations such as physical activity and non-sport groups, such as fitness sessions.

## Headline Figures 2018/19

The table below shows the total club membership and active coaches figure for 2018/19 for sport clubs and non-sports clubs that are part of Community Sport Hubs.

	<b>Sports Clubs</b>	<b>Non-Sports Clubs</b>	<b>Total</b>
Number of distinct clubs part of hubs	1,541	186	1,727
Number of clubs providing membership data	1,285	148	1,433
Club membership*	170,594	16,637	187,231
Number of clubs providing coaching data	1,099	138	1,237
Active coaches	13,506	1,076	14,582

\*Playing club membership (note: we collect separate data on social or non-playing members)

## Trends

We have consistently collected data for a number of sports clubs over a four-year period, as shown in the table below. A number of these sport clubs have also received support through a **sportscotland** funded SGB Regional post, the Sports Facilities Fund, and/or Direct Club Investment, in addition to being part of a CSH.

Number of clubs with 2017/18 to 2018/19 membership data	1,123
Change in club membership*	+9 %
Number of clubs with 2017/18 to 2018/19 coaching data	968
Change in active coaches	0 %

\*Playing club membership (note: we collect separate data on social or non-playing members)

# Appendix 1

## Community Sports Hubs – Hub profile data

Historically (2010-2015) the CSH project reported sport club data by specific hub, through the HUBSMO system not the current My Sport system. From the outset, hubs have also collected data from other organisations that have been part of the hub. This includes physical activity groups or classes and non-sport organisations. The following appendix shows an up to date review of sport club data and data on other organisations specific to a CSH. At the end of March 2019, 197 CSHs have been established. Data was recorded by 188 of these CSHs and shows that 1,541 distinct sport clubs are involved in these hubs, with a total hub membership of 156,562, supported by 14,979 deliverers. 63% of Hubs are based in schools.

### Definitions

**Hub member:** A person who takes part as a club member or participant in any sport activities run by a sports club that is a partner in the hub at the hub location(s).

**Hub deliverer:** A person who coaches/leads a sport activity session, or assists in coaching/leading a sport activity session at the hub.

### Trends

	2011/12	2012/13	2013/14	2014/15	2015/16	2016/17	2017/18	2018/19
Number of established hubs	57	105	131	142	157	179	192	197
Number of hubs providing data	34	77	113	131	151	175	187	188
Number of distinct sport clubs part of hubs	227	611	835	994	1,141	1,248	1,303	1,541*
Number of hub sport clubs providing data	176	556	793	925	1,096	1,198	1,249	1,285
Total members	16,163	51,761	81,686	111,633	131,073	149,803	158,488	156,562***
Total deliverers	**	**	8,589	10,775	12,871	14,632	15,671	14,979***

\*Figure includes 79 GO LIVE! Get Active! projects.

\*\*Deliverer figures not released due to issues with data, resolved in 2013/14.

\*\*\*See note below.

**Note:** In 2018-19 we undertook a data cleansing process for hub members and coaches. We found that some officers had been adding in wider participants and committee members to the hub members and hub deliverers figures. So the 2018-19 hub data is more reflective of what is happening in hubs. For trend data – we see that there has only been a marginal increase in 2018-19 as the figures for last year were inflated. We will work with teams across the year ensure data is reported consistently.

## Change in Hub Members

The following table shows the change in hub members for sport clubs that have been part of a hub for two or more years. We can see how hub membership is changing over time.

<b>Clubs that have been part of a CSH for...</b>	<b>Number of sport clubs</b>	<b>% change in hub membership.</b>
2 or more years	944	-0.6 %
3 or more years	742	9 %
4 or more years	371	7 %
5 or more years	235	23 %
6 or more years	137	65 %
7 or more years	39	75 %

## Appendix 2

### Physical Activity and Non-Sport Organisations

In many communities the CSH is about more than just sports clubs. On this basis we collect data from not just sport clubs but all groups that are involved in the hub. These include physical activity groups and non-sport groups and the table below outlines their data.

*Note that part of the large increase in non-sport club participation in 2017-18 was due to improved data collection and reclassification of some sport clubs as non-sport clubs, as set out in the 2016-17 version of this report*

	2011/12	2012/13	2013/14	2014/15	2015/16	2016/17	2017/18	2018/19
<b>Number of hubs with non-sport groups</b>	12	32	50	52	45	51	78	115
<b>Number of hubs reporting on non-sport groups</b>	8	27	49	47	43	49	75	99
<b>Number of distinct non-sport groups</b>	17	61	91	97	82	83	134	186
<b>Number of distinct non-sport groups providing data</b>	9	48	86	86	81	78	130	148
<b>Members</b>	1,427	2,911	5,253	5,768	6,354	6,766	13,851	16,637
<b>Deliverers</b>	78	235	394	375	461	428	772	1,076
